

Project Stocking Stuffers

Project Stocking Stuffers began last year (2009). My sons and I, wanting to do something meaningful for the holidays, had the idea to put together Christmas stockings for homeless people around the Denver/Metro area. I sent out e-mails to my "address book", asking for donations of personal use items, such as tooth brushes/tooth paste, lotion, shampoo, etc. Everyone who donated items was invited over to our house for a Stocking Stuffer Christmas party. From all of the donations, we were able to assemble 83 Christmas stockings, filled to the brim!. Many participating families took stockings to distribute to the homeless. My goal was to stuff and distribute 50 stockings. I also wanted this to be a family friendly event; something that families could participate in together, for the betterment of our community. I can proudly say that we exceeded that goal. This year, the goal is set even higher. Stay tuned for more information.

Project Stocking Stuffers volunteers assemble Christmas stockings in December 2009
